Final Note by the Third Member of Council.

Subject:— Grant of a foreign scholarship to Mr.S.M.Mehkri, Medical Probationer, for specialising in Ophthalmology.

These papers relate to an application from Mr. Mahamad Shaffiuddin Mehkri, Medical Probationer in the Minto Ophthalmic Hospital for a foreign scholarship. Mr. Mehkri after passing the B.Sc. examination in the first class was given a Government scholarship to study for the M.B.B.S. in the Madras Medical College, and in due course he took the degree in April 1928. He was appointed Medical Probationer on Rs.100 in August 1928 and since then has been working in the Minto Ophthalmic Hospital. His work there has been very highly commended by Dr. B.K. Narayana Rao, Superintendent of the Hospital, who has strongly recommended him for a foreign scholarship for the study of Ophthalmology. The recommendation has been supported by the Senior Surgeon. As his service is too short to enable him to take study leave, I am of opinion that he may be given a scholarship of £275 per annum together with passage to and fro, the cost being met from the provision of Rs.10,000 made in the Medical budget for foreign deputation. The scholarship will be for one year.

The question was considered in Council on the 31st July 1929 when it was resolved that my proposal may be approved. The resolution of the Council may be graciously sanctioned.

MEMBER OF COUNCIL.

From

Dr. B. Mahomed Usmon, L.M.S.,

Senior Surgeon in Mysore, Bangalore.

Med. 168-28-1

To

The General Secretary

to the Government of His Highness

the Maharaja of Mysore, Bangalore.

Sir,

In forwarding herewith a copy of letter No. 577 dated the 12th January 1929, from the Superintendent, Minto Ophthalmic Hospital, Bangalore, together with its enclosure in original, I have the honour to recommend the deputation of Mr. M. Shaffiuddin Mehkri, Medical Graduate, for specialising in Ophthalmology. Besides possessing good general educational qualifications, Mr. Mehkri has shown an interest and an earnestness in his work such as justifies a belief that with suitable training he will make a first rate Ophthalmic Surgeon. It seems to me to be very desirable in the interests of the Department to develop such good talent, and for this purpose to grant a foreign scholarship to this young man for special study in England.

The Superintendent suggests that Mr. Mekhri may be required to put in at least one full year of service at the Minto Ophthalmic Hospital before he proceeds to England. I do not agree with him in this. Mr. Mehkri has been in the institution for very nearly six months, and during my last inspection I found he was given operations on the Eye to perform inclusive of Cataract. This means that the Medical Officer has confidence in him an

(12) 74

advanced in the work sufficiently. The sooner therefore he is sent the better it would be. There are instances of medical gradudates having been deputed for foreign study straight off without an intervening probationary period. In the present case, the service of six months is an added qualification.

I request early orders.

I have the honour to be,

Sir,

Your most obedient servant,

Senior Surgeon.

(23)

Letter No. 577 dated 12th January 1929 from the Superintendent, Minto Ophthalmic Hospital, Bangalore, to the Senior Surgeon in Mysore.

I have the honour to forward herewith an application from Medical Graduate Mr. M. Shaffiuddin Mehkri, for favourable consideration.

He is a young man well equipped with general education, suitable for specialising in Ophthalmology and I have found him a steady, willing, keen and intelligent worker. It is very desirable to send such men for specialising in foreign countries so that they may be available for our institutions in the future. I strongly recommend that he be granted a scholarship for study of Ophthalmology only with a stipulation that while in foreign countries he will engage his full attention to this one subject and that he be allowed to leave for foreign study after putting in at least one full year of service in this Hospital.

"Copy."

Thomas

Senior Surgeon.

To,

Amin-ul-mulk,

Mirza Mohamed Ismail B.A., C.I.E., O.B.E.,

DEWAN OF MYSORE,

Through,

The Superintendent of Minto Ophthalmic Hospital,

B a n g a l o r e.

The humble petition of Mohamed Shafiuddin Mehkri, B.Sc., M.B.B.S., most repectfully showeth.

The petitioner is now a Medical Graduate working in the Minto Ophthalmic Hospital, Bangalore. He is a son of the late Mr. Mohomed Jafar Mehkri, City Superintendent of Police, Mysore, (1912-1917), grandson of late Mohomed Mynuddin Ali Khan Mehkri (Musaheb and Palace Pensioner) and great-grandson of Bakshi Mohiuddin Ali Khan Mehkri Adalat Committee Bukshi - the highest Judicial tribunal in the reign of His Highness Krishnarajendra Wodiyar Bahadur of blessed memory. The petitioner passed his School Final Examination from the Mysore Royal School founded for the education of Rajkumar C. Desaraj Urs, and still continuing as the companion to the Rajkumar, passed his University Entrance Examination from the Government Collegiate High School, Bangalore. He then joined the Central College in July 1921 and passed his B.Sc., Examination (Zoology) in the first class, and was awarded by His Highness the Chancellor, the Nagar Manjai Udupa Gold Medal as a distinction, having obtained the highest marks in his special subject. During his B.Sc., course, he worked under Professor C.R. Narayana Rau, M.A.L.T., Professor of Zoology, Central College, Bangalore, who took great interest in him and put him in the way of research work and reported to the Royal Zoological Societies London and Berlin the discovery, by the petitioner, of a new species of earthworm. The same

same has been accepted by the above societies and named after the petitioner's family name, as "Octochaetes Mehkerensis" and the specimens have been accepted by the British and Hamburg Museums. In collaboration with his professor, he read a paper before the All India Science Congress held in Bangalore in December 1923, on the subject of earthworms of Mysore and Coorg.

On his completing his B.Sc., course, his professor offered him the place of a research scholar and Demonstrator in Zoology in Central College with prospects of future rise but his inclinations were very strong towards the Medical profession and accordingly he joined the M.B.B.S., class in Madras Medical College in July 1923, as a Mysore Government Scholar. Of the hundred students who joined the Medical College in 1923, only twelve completed their course by obtaining their M.B.B.S., degree at the end of the scheduled period of 5 years (in April 1928) and the humble petitioner was one of the lucky dozen. Being a Mysore Government Scholar, he reported himself to the Senior Surgeon in Mysore on 23rd May 1928, and the Government was pleased to appoint him as a Medical Graduate on Rs.100/- from 2nd August 1928, and passed orders to post him to the Minto Ophthalmic Hospital, Meanwhile, he had joined the above Hospital as a Volunteer on 1st June 1928 and worked there in this capacity for two months, when orders came regarding his appointment. When the petitioner took his M.B.B.S., degree, he was awarded the Hobart Prize by His Excellency the Chancellor in the Convocation held at Madras on 23rd August 1928.

If the petitioner had accepted the kind offer of his Professor, he would have been very much better off financially than he is at present. His contemporaries are now occupying the places of Assistant Professors and lecturers in the Intermediate colleges and Central College drawing a salary of Rs.175/- to 250/-, but he chose to take up the

(24)

the stiff and tedious course for the M.B.B.S., degree, and went through a hard scholastic life for another five years, simply out of the liking he had for the Medical Profession. He is deeply inclined towards, and interested in, Ophthalmology and Surgery especially of the Ear, Nose, and Throat. The nature of work he has been capable of doing since he joined the Minto Ophthalmic Hospital will be vouched for by his immediate superior and Superintendent of the above hospital, Dr. B.K. Narayana Rau, B.A., M.B., M.R.C.S., D.O., etc., who has all along been extremely kind and considerate to him in every way.

The petitioner had every chance of being selected as a House Surgeon in the General Hospital Madras for one year and subsequently being started as an Assistant Surgeon on Rs.200/- rising to 800/- or 1,000/-. Amoungst the representatives of other communities, in Madras, a Muslim who passed his L.M.S. Examination last year has been given this place, because the petitioner, the only Muslim M.B.B.S., for the past three years, did not apply for the vacancy in 1928-29. The main object of the petitioner coming to Mysore is to serve his fatherland and to be one of the humble servants of the Universally beloved sovereign, His Highness the present Maharaja of Mysore, whose state, many generations of forefathers of the memorialist have served faithfully and with distinction. He is very auxious to continue his studies in foreign countries and attain higher qualifications in Ophthalmology and in Ear, Nose, and Throat Surgery, and if he is awarded a scholarship for a two years' stay in Europe, he is duty - bound, as also to satisfy his own professional inclinations, will do his very best to equip himself with the best knowledge and training possible in the above lines and come back with the Diplomas and degrees attached to his course of study. As the petitioner has been a student till about seven months back, he can continue his student's life with great ease now, if he is given the opportunity of proceeding to Europe as

(27)

as early as possible.

The petitioner humbly prays that his merit, if any, may ~~will~~ be considered, along with his parentage and the long historic family connection with the State of Mysore. He begs to refer to the petition of his lamented father Mr. Mohomed Jafar Mehkri, submitted with its enclosures to His Highness the Maharaja on 15th April 1912, which was most graciously considered by His Highness and the petitioner's father was appointed City Superintendent of Police, Mysore, in 1912 and was kept there until his death, while stil in service, on 25-7-17. During this period of his service as City Superintendent of Police, the petitioner's father added to his laurels previously acquired, by being awarded a gold wrist-watch with bracelet by His Highness the Maharaja of Mysore, in connection with deteetion work done in the theft case in Palace Office Mysore. A copy of the memorial of the petitioner's father referred to above is appended herewith for facilitating reference to old records, with a view to recall to mind the parentage, family connections and the services in the past, of his forefathers to the state, and the recognition thereof during the past many generations.

The petitioner humbly prays in conclusion that the benign Government of His Highness the Maharaja may ~~will~~ kindly be pleased to confer on him a suitable foreign scholarship for D.O., and D.L.O., courses before the close of this official year and send him over to England and other centres of learning as early as possible, thus giving him the opportunity of equiping himself with higher qualifications and serving the state with all his might and main, proving himself one who deserved the patronage.

Mohomed Shafiuddin Mehkri

Petitioner.
